18 million KM driven with ZERO Accident

Mazrui International

Fleet Management System

Telematics technology - the branch of information technology which deals with the long-distance transmission of computerized information such as:

- Locations (Trucks, Geo-fence, Yards, etc)

- Alarms (Speed, Idling, License expiry, etc)

- Truck Dashboard (Fuel consumption, Odometer, Coolant temperature, etc)

- Driver Behavior(Acceleration, Braking, etc)

- Reports (Driving hours, Alarms, Driver Performance, etc)

- Electronic pre-trip inspection

THANK YOU
